Water Quality Division
State of Michigan Office Building
350 Ottawa Avenue, N.W.
Grand Rapids, Michigan 49503

Re: N.P.D.E.S. Permit No. MI 0037117

Dear Mr. Vine:

In answer to your letter of March 8, 1977, the subject system has been held in abeyance during the past severe winter. All components are on hand; not assembled.

However, there has been no operation of the related zinc production line since November 24, 1976; no waste water was generated from this source.

Current plans call for installation by April 1, 1977, or before operation is resumed.

We trust this is satisfactory, but please feel free to contact our office if anything further is desired.

Very truly yours,

P. R. Janney
P. R. Janney
